Objective:

My career objective as a MERN stack developer is to leverage my expertise in MongoDB, Express.js, React, and Node.js to design and implement innovative web applications. I aim to contribute to dynamic and collaborative teams, utilizing my skills in full-stack development to create scalable and efficient solutions. I aspire to stay abreast of emerging technologies, continuously learn, and apply best practices in software development.

Skills

Expertise: HTML5 | CSS3 | JavaScript ES6 | React.js | Tailwind | Bootstrap | React Bootstrap | DaisiUI | Flowbite |

Comfortable: Express and Node.js | Rest API | Devtool and Debugging | MongoDB | JWT | React Hook Form

Familiar: Git | Vercel | Dotenv |

Tools: GitHub | Visual Studio Code | Firebase | React Router | Netlify | Surge Figma | Chrome Dev Tools | Canva

Projects

Magic Learner (A summer camp music school website)   Client Side | Server Site | Live Side

Time Period: 10-12 days

 Key Features:

- Implemented payment system.
- Integrated real-time data using Express, MongoDB and Firebase.
- Implemented different dashboard for admin, instructor and user.
